THE DAY SCHOOL BELL.

35,000 Copies issued. A new Singing Book for day schools called the Day School Bell, is now ready. It contains about 200 choice songs, rounds, catches, duetts, tries, quartetts and chorouses, many of them written expressly for this work, besides 32 pages of the elements of music. The elements are so easy and progressive, that ordinary teachers will find themselves entirely successful in instructing even young scholars to sing correctly and scientifically; while the tunes and words embrace such a variety of lively, attractive, and soul-stir-ing music and sentiments, that no trouble will be experienced in inducing all beginners to go on with zeal in acquiring skill in one of the most health-giving, beauty-improving, happiness-yielding, and order-producing exercises of school life. In simplicity of its elements, in variety and adaptation of music, and in excellence number of its songs, original, selected, and adapted. it claims by much to excel all competitors. It will be found the best ever issued for seminaries, academies, ond public schools. A few sam ple pages of the elements, tunes, and songs are given in a circular; send and get one: It is com-piled by Horace Waters author of "Sabbath
